

SAFE HARBOR LAB RESCUE

FOSTER HOMES Desperately NEEDED

Hello Dear Lab Lover!

Safe Harbor Lab Rescue is rescuing us in leaps and bounds! This year they'll save the lives of about 300 Labs just like me! But for every Lab rescued, a short term foster home is needed . . . Will you please help us?

You provide: lots of TLC, good meals and help us with our manners. We usually sit and stay a couple of weeks at most . . . our Adoption Team works hard to get us into just the right forever homes quickly.

Safe Harbor provides: our medical care, training and behavior support and other help as needed. They're here for us 24/7!

"Being in foster care is like going from the shelter with little hope to winning the doggie lottery!" woofs our buddy Max.

If you would like to learn more about helping save Lab lives though fostering, please contact Sharon at labhikergals@yahoo.com

Thank you!

The Very Grateful Labs
